EVALUATION OF OUTCOMES AND IMPLICATIONS FOR PROGRAM RENEWAL

The yearly assessment reports for all program options is prepared by the MSW Program Director and is reviewed by faculty to determine any needed program changes. This process takes place formally in Curriculum Committee and informally in discussions with individual faculty. Suggested changes are brought to the general faculty meeting where they are reviewed, discussed, and voted. Once this occurs, changes are implemented and re-evaluated to ensure that program improvement has occurred.

2018-2019 On-Campus Assessment Results

A careful review of the findings indicates that the Program meets or exceeds the standards for all competency benchmarks set by the Program. The LLU MSW Program is highly committed to the continuous improvement process and to the ongoing quality of our Program. It should be noted that improvement was observed on Competency 7 which was slightly lower than the established benchmark for the previous year. Also, all individual scores that make-up the reported means were also reviewed by faculty in order to further strengthened the overall quality of the MSW Program.
